

## TINDEX

TIndex is the Technomic Index on total foodservice industry reported monthly.

- Each index number corresponds to the same month in 2019, where the index is assigned 100. Therefore, as an example, the January 2021 Index of 82.2 suggests that the industry is 17.8 percentage smaller in January 2021 than it was in January 2019.
- The index is based on a number of datasets available to Technomic including: operator transaction, consumer visit tracking, and distributor sales information. All data is weighted and evaluated to align with a representation of the total foodservice industry.
- The Index includes inflation and is representative of sales change on a year over year basis for the given month.

TIndex  
Year-Over-Year Index of Foodservice Industry Sales  
2019=100\*

\*Each month's index correspondence to the same month in 2019 where the index = 100.
